Committees Named At Council Meet

At the inaugural meeting of Town Council held on Monday, October 24th, Secretary W. Johannesson administered oaths of office to Mrs. Mary Burrows and council newcomers, A. Chesterman and R. Findlay.

Councillor Harry Zolmer was elected as Deputy Mayor.

Standing committees of council were set up as follows: Finance, Development and Personnel, Chairman B. Gooding, Mary Burrows and Alfred Chesterman; Public Works and Utilities, Chairman B. Gooding, Robert Findlay, and Harry Zolmer; Police, Fire and Civil Defence, Chairman Mary Burrows, Harry Zolmer, and Alfred Chesterman; Public Welfare, Health and Health Unit, Chairman Henry Shimbashi, and Mary Burrows; Publicity, Chairman Harry Zolmer, and Henry Shimbashi; Licensing, Chairman H.W. Pickup, and W.G. Johannesson; Stony Plain School Division, to be named later; Recreation

and Community Services, Chairman Robert Findlay, and Henry Shimbashi.

It was also decided at the meeting to change the day of the regular meeting from Thursday morning to Wednesday morning.

F.G.A. Meet Thursday

Regular monthly meeting of the Pembina Fish and Game Association will be held in the Goliad Ltd. safety hall at 8:00 p.m. on Thursday, October 27th.

Hunting training instructors completed a school recently in Drayton Valley and Lodgepole and certificates will be presented at the meeting to the twenty-one students who qualified.

Films will be shown and lunch served. A special guest will be Mr. Dave Unger, Fish and Wildlife Officer from Evansburg.

The F.G.A. is now raffling a .308 Savage rifle and tickets are available at Thompson's Sporting Goods.

Scouts Apple Sale Now in Progress

The Boy Scouts sale of apples is now in progress with residents of the town being contacted by phone. Delivery of the apples will take place from October 26th to October 29th.

Anyone who would like a box of apples and has not been contacted is asked to phone Gordon Hay at 542-3127.

Your purchase of apples will help to raise money to finance Cub and Scout activities.

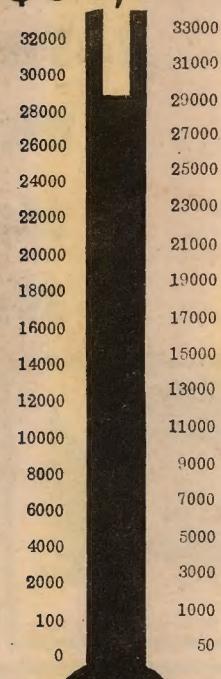

Choir Practices

Practices for the Community Choir Christmas music program will start on Wednesday, November 2nd at 9:00 p.m. in the United Church.

All those interested will be welcome at this first meeting.

Centennial Fund

\$34,000

Donations to the Centennial Fund have been received from Lufkin Machine Co. Ltd., R. D. Conger Store Ltd., and Don Latke.

Mrs. Helen Johnson, Supreme Honoured Royal Lady of the Order of the Royal Purple of Powell River, B.C. was a Drayton Valley visitor last week. She is shown above (centre) at a meeting with Drayton.

Valley Elks and Royal Purple representatives prior to a special meeting of district lodges held later in the evening. On the left are Mr. and Mrs. J. Hazzard and on the right, Mr. and Mrs. Ed Litke.

Voters Approve Fluoridation, Sunday Sports

Two hundred and ninety one of Drayton Valley's 1500 eligible voters turned out at the poll last Wednesday to decide the issues of fluoridation of the town water supply and Sunday sports. Both by-laws were supported by the electorate.

In the fluoridation plebiscite 145 voted for the by-law and 139 against. Seven ballots were spoiled.

Sunday sport received 211 yes votes, 73 against and seven ballots were rejected.

BALMY WEATHER FOOLS APPLE TREE

The balmy weather we enjoyed, off and on, for a few days recently upset the schedule of a miniature crabapple tree at the Arnold Lloyd home. Last week the tree began to bloom and one of the dark red blossoms and several buds have since crowned the jumble of papers on the editor's desk.

Meeting Reviews Centennial Progress

The Drayton Valley Centennial Committee held a dinner meeting at the Jade Cafe on Monday, October 24 for the purpose of reviewing the progress of the Centennial Project and to lay some concrete plans for the activities which will take place during the Centennial Year.

Chairman, Ray Wickens brought the meeting to order followed by reports from Building Committee Chairman, Brian Gooding and Financial Chairman, Sherold Moore. Both reports were duly discussed and then the meeting went on to the main business at hand, that of forming committees to implement activities during the Centennial Year.

The committees formed were: The Voyageur Canoe Race Committee, with co-chairmen Brian Gooding and Fred Raven; the Centennial Caravan Committee, with co-chairmen Sherold Moore and Jack Bright; The Student Exchange Committee, with

chairman, Claude Albert; and the Town Decoration Committee with Tim Joyce as chairman.

It is hoped that with these committees as a nucleus the Centennial program will develop to include not only all of Drayton Valley as a town but also the surrounding communities in the district are cordially invited to take an active part in the planning and implementation of the Centennial festivities.

The first major celebration of the Centennial year as far as we are concerned will be the Voyageur Canoe Race which will be coming through here on May 25. The official opening of the Drayton Valley Centennial Civic Centre will take place in conjunction with this national event.

The second major celebration in Drayton Valley and district will be the Centennial Caravan which will visit here early in July.

A Centennial Workshop will be held in Drayton Valley in the near future for everyone throughout the district interested in Centennial Projects and the promotion of the Centennial Program. The date and location for this workshop will be announced at a later date.

It is hoped that a genuine interest can be created in this workshop and that it will be very widely attended by everyone in the district who is interested in the promotion of our Centennial festivities.

Board Plans Operation Centennial Civic Centre

A special meeting of the Drayton Valley Recreation Board was held on Friday evening, October 21, 1966 in the Recreation Office. The purpose of the meeting was to lay some preliminary plans for the operation of the Drayton Valley Centennial Civic Centre during the coming winter season.

The different phases of operation of the new facility were discussed and the following committees were formed: The Finance Committee, with Hugh MacKenzie, Dr. Robert Findlay and Peggy Tyler; the Schedule Committee with Russell Simpson and Pat Moore; the Operations Committee with Ken Machan and Joe Balen.

These committees will go to work immediately on their respective phases of operation and hope to have a formulat-

ed and definite policy of operation by November 15, 1966.

Admission prices for public skating were established. Single admission prices for adults will be 50¢, students and children 25¢. Season tickets will be priced at \$8.00 for adults, \$4.50 for students, and \$3.00 for children. Family tickets will be \$16.00 per season.

Some phases of rink rental and the hiring of personnel were also finalized at this meeting.

The Drayton Valley Recreation Board will hold its regular monthly meeting on Monday, November 7, 1966 at 7:30 p.m. in the Recreation Office. The different committees of the Board will hold meetings as often as required during the winter season.

NEW DOCTOR JOINS DR. IAN WAUGH

Dr. T.H. Eustace, formerly of Suffolk, England, arrived in Drayton Valley recently to join Dr. Ian Waugh in his medical practice. Dr. Eustace's wife and four sons will arrive here in December.

Choralaires Entertain

The Choralaires, a Drayton Valley ladies singing group, is shown above during a recent performance at a local function.

The group of twelve is under the direction of Mr. Dick Humpreys, shown in the foreground.

Adult Education Program To Commence Nov. 2

The adult education program will commence with registration for Math 10 on Wednesday, November 2nd at 7:00 p.m. in the recreation office of the Town Hall. A fee of \$25.00 will be charged.

Mr. R.P. McDonald, vice-principal and math teacher at St. Anthony's School, will instruct. Classes will be held in the Frank Maddock High

School for 25 weeks, two evenings per week.

The adult education program is sponsored by the Stony Plain School Board and organized by the Drayton Valley Recreation Board.

Negotiations are underway to offer Math 30 as well.

For further information call Pat Moore at 542-3224.

FOOD RESEARCH

Oil companies are seeking to develop low-cost food from petroleum. Germany made fats from petroleum during World War II to feed forced labor groups, but they were neither safe nor tasty. Now oil producers are hopeful that petroleum can be turned into agreeable food to alleviate the world's protein shortage.

Beni Amer tribesmen of Ethiopia use melted butter to hold their frizzy hair in place.

Recreation Board Forms Committees

The Drayton Valley Recreation Board has formed the necessary committees for the operation of the new Centennial Civic Centre. Among these committees is the Schedule Committee, responsible for the organization and preparation of the arena schedule.

The persons on this committee are Mrs. Pat Moore and Mr. Russell Simpson. The Committee will start its work on this rather difficult assignment immediately and hope to come up with a satisfactory schedule by November 15th, which is the tentative opening date for the civic centre's winter program.

All organizations, clubs, lodges or community groups who want ice time or who require the use of these facilities for any purpose are requested to call the Recreation Office at 542-3327 and outline their requirements.

This information is very important at this time and

must be in the hands of the committee on or before October 31, 1966 in order that a study can be made and satisfactory decisions reached in the matter.

Program to Deal With Alcoholism

The Catholic Women's League of Drayton Valley is inviting the public to a special program at St. Anthony's Separate School Auditorium on November 7th at 8:15 p.m.

The program will deal with the problem of alcohol and how it affects the family, the community and the employer. Guest speakers representing Alcoholics Anonymous, Al-Non (spouse of the alcoholic), and Al-Teen (innocent victim of the alcoholic family) will be present.

Coffee will be served.

New Trustees Take Office

The regular meeting of the Board of Trustees of the Drayton Valley R.C. Separate School District No. 111, was held at St. Anthony's School last October 16th.

On a motion by Mrs. McGee Trustee A.J. Telford was elected Chairman of the meeting pending elections by the Board for offices of Chairman and Vice-Chairman.

The Secretary-Treasurer produced verification from Town Secretary-Treasurer, W.G. Johanneson advising that Mr. Meraw and Mr. Serenas were elected for two year terms on the school board by

acclamation, and the oath of office was administered by Mr. Telford to incumbent the two trustees.

Mr. E.C. Meraw was elected by acclamation by the Board of Trustees as Chairman of the School Board. Mr. Meraw has held this office since the establishment of the Separate School District.

Mrs. E.A. McGee was also elected by acclamation to hold the office of Vice-Chairman of the School Board. This is Mrs. McGee's second term of office in this capacity.

A discussion on gymnasium rental received approval on

Mrs. McGee's motion that any organizations wishing to rent the gymnasium for use of sports, be charged at the rate of \$4.00 per hour to meet the cost of lighting and that they also be required to have the school janitor on hand for supervision purposes.

Secretary-Treasurer, A.E. Andruschak advised the Trustees of the annual A.S.T.A. and A.C.S.T.A., annual conventions. Mr. Meraw advised that he would likely have the opportunity to attend and a motion approving one trustee to attend was made. Other trustees indicated that

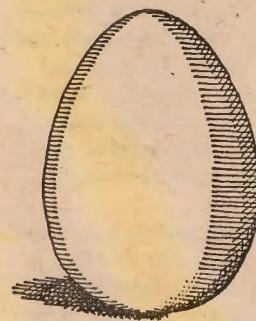

they would not have the opportunity to attend the annual conventions.

Due to the heavy agenda it was decided that the meeting continue on October 18th at St. Anthony's School and that meeting resumed with a presentation of a trial balance of the general ledger for the examination of the trustees with comparing estimates of the 1966 budget. The secretary-treasurer advised that the school district would likely have a small surplus at the end of the calendar year and that the amount would be applied to the present operating deficit.

Preliminary discussions took place regarding school addi-

tion. The secretary-treasurer was directed to contact Corbeld Engineering Limited to arrange a meeting with the school district's Board for the purpose of discussing the appointment of his firm for the design of the addition and construction supervision. The Board will consider other architectural firms for the addition.

On the recommendation of Mr. Orieux, school principal, a motion was approved to hire a part time clerk-stenographer for his office on a trial basis until the Christmas recess. The Board decided on the trial basis in order that they may have the opportunity to examine the matter.

double your money with Canada Savings Bonds Centennial Series

Centennial Series Canada Savings Bonds offer you their highest interest yield ever—5.48% a year when held to maturity.

The new Bonds pay annual interest at the rate of 5% for each of the first four years; 5 1/4% for each of the next three years; 5 1/4% for the following year and 6% for each of the last five years—a total of \$72.25 in interest on every \$100 Bond.

And for the first time, there is a special compound interest option. To take full advantage of it, leave all the annual interest

uncollected until Nov. 1, 1979, and you will get interest on your interest, amounting to \$27.75 extra on every \$100 Bond.

It all adds up to total interest of \$100 on every \$100 Bond. It's a safe, sure way to save. **DOUBLE YOUR MONEY** with Canada Savings Bonds Centennial Series.

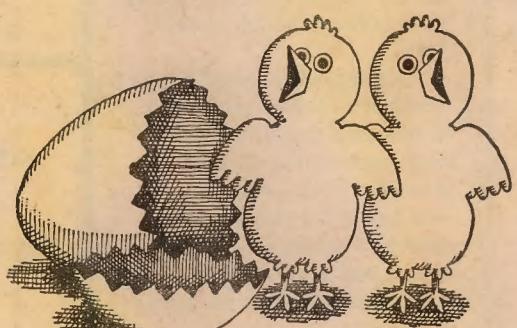

This Series retains all the traditional features which make Canada Savings Bonds Canada's most favoured investment.

They are still easy to buy for cash or on instalments where you work, bank or invest.

You may buy as little as \$50 or as much as \$10,000. Every Canadian resident may buy up to this limit. So can estates.

They are still simple to cash, anytime, at any bank in Canada for their full face value plus earned interest. Just fill out the redemption form on the Bond, present it to your bank and you'll get your money right away.

And now they're better than ever to keep with the highest interest yield ever and interest on interest. **DOUBLE YOUR MONEY** with Canada Savings Bonds Centennial Series.

Editorial — Comment

Chamber Needs Support

The Drayton Valley Chamber of Commerce unfortunately, is failing to gain the active support of a number of people who should be community leaders. Why the Chamber fails to attract a larger percentage of business men and others who should be vitally concerned with the welfare of the town is a puzzle, and one which must be solved if the community is to progress as it should.

Most of us feel, and the General Plan supports the theory, that the community will move ahead at a steady rate. However, the future of the town depends to a large extent on the people in it today and if we don't care we can expect results that mirror our lack of concern. But if we work together we can do a great deal to guide and shape its destiny.

The choice should be a simple one!

There are probably many different reasons why support of the Chamber is not forthcoming but if it involves policy, dues, meeting topics or anything other than personal grievances the right way to resolve the problem is to place it squarely before the meeting. It should not be necessary to say that the wrong way is to simply throw up your hands and quit.

Helping Build a Better World

There is more than meets the eye in Halloween, the children's festival that binds together past, present and future. Centuries ago, Halloween was the Eve of All Hallows' Day, the day when men remembered all the saints, all the good people who lived and died to make the world a better place.

Today, Halloween has kept much of its ancient form, but the supernatural aura has faded. The ghosts who stalk the Halloween darkness these days are our own youngsters delighting in dressing up, staying up late, and collecting good things to eat.

But just as today's Halloween grew out of the past, so too it contains the seeds of the future.

Because the little people these days are not collecting just for themselves. Every year, more and more of them are carrying UNICEF Halloween boxes, collecting pennies and nickels and dimes for the United Nations Fund. And the coins they collect are used by UNICEF to provide health and hope for less fortunate children around the world.

And that is where the future comes in. When we help the world's children to a good start in life now, we build a better world tomorrow.

Hard luck stories we've all heard and the latest tear-jerking gem to come our way follows.

Hard Luck Story

A farmer received notice for his MFU fees, replied as follows:

"I wish to inform you that the present condition of my bank account makes it almost impossible. My shattered financial condition is due to federal laws, provincial laws, liquor laws, mother-in-laws, brother-in-laws and outlaws. Through these laws I am compelled to pay business tax, head tax, water tax, sales tax, carpet tax, poll tax besides excise tax and income tax. Even my brain has become taxed.

I am required to get a business license, car license, truck license, chauffeur license, drivers' license, marriage license and dog license. I am also required to contribute to every society and organization which the genius of man is capable of bringing to life; the Red Cross, the Blue Cross, the purple cross and the double cross. Not to forget the red feather, the anti-red digger, widows' relief, orphans' relief, expectant mothers' relief and the wayward husbands' relief.

For my own safety I am required to carry life insurance, property insurance, liability insurance, fire insurance, burglar insurance, tornado insurance, unemployment insurance, old age insurance, hail insurance and car insurance.

My business is so governed that it is not easy for me to find out who really owns it. I am suspended, expected, suspected, disrespected, rejected, examined, re-examined, informed, summoned,

Hospital Auxiliary Meeting

The regular monthly meeting of the Hospital Auxiliary was held recently in the nurses residence with nine members present.

New curtains are needed for some of the hospital rooms. A motion was passed that these be bought.

We would like to thank Mrs. MacKenzie for the knitting she did for us. Anyone who would like to knit baby outfits for the auxiliary please phone Mrs. Mavis Waddel at 542-3779.

Members were asked to remember to bring five recipes to the next meeting for the cook book which is to be printed. They were also asked to bring two or three pounds of toffee wrapped in papers and a wire circle about six inches across to the next meeting.

Centennial Report

1867 1967

by JOHN W. FISHER
CENTENNIAL COMMISSIONER

You've heard of the population explosion. Have you heard about the information explosion?

In this fast age, I am told, mankind's total knowledge is increased daily by thousands of items of new information produced by scientists, engineers and other professionals. The problem is how to get the information out to people who can use it. It's no good filed away in office cabinets.

In a way we are faced with problems of an information explosion at the Centennial Commission. The Confederation Exhibition Train and Caravans touring Canada from coast to coast next year, for example, will be stopping at more than 800 communities. That means more than 800 place names and more than 800 sets of dates and we want all the people in the 800 communities to know about them.

The Train and Caravans represent merely one challenge in the business of Centennial information distribution. Itineraries for the 3,500 Centennial Canoe Pageant, the Armed Forces' Military Tattoo, dates for the naval assemblies in coastal ports, air shows, Festival Canada performances across the land-travelling exhibits of paintings and sculpture and world sport championships--people want to know what, where and when about all these and the many more national events of Centennial year. In addition there are still more planned by the provinces and territories, plus local activities sponsored by communities and private organizations.

Advertisements in the press and over television and radio, of course, will herald events in the cities and towns in the weeks before the occasions. But to let all the people in all of Canada know months in advance about every date and every location for each event, we believe, would create an information explosion on the order of about six megatons. (Our theorists at the Centennial Commission also advise that it couldn't be done.)

It's a great challenge to get information out across the land to all the people, especially when some of the projects are still in the planning stage.

I think one member of my listening audience realized that when she asked a question in an auditorium recently.

"I'm from White Rock, British Columbia, and I'm having friends from the States visiting in the middle of May. Can you tell me what is happening in our area then?"

Well, fortunately I had a set of our computerized data books with me and was able to answer, after a little searching. One of the Confederation Caravans would be stopping in

1966 Award Winners*

KEITH WRIGHT,
Edmonton

Alberta Junior Citizen of the Year.

You'd think one heroic deed a year was enough for any 11-year old boy — but not for our award winner, Keith. Last summer Keith and his friend Kenny Beisel were walking along Mill Creek. Attracted by the cries of some children, they discovered 2-year old Debbie Shulz lying face down in about three feet of water. Keith waded into the water, pulled the child out and handed her to Kenny. After making sure she was breathing, they took her home. The other heroic deed? Last April when Keith was on a Boy Scout hike in the Rainbow Valley area, he courageously used

his windbreaker to extinguish a menacing grass fire. The windbreaker was burned, but the fire was put out!

We congratulate Keith and his enterprising friend Kenny, and thank Alberta's Weekly Newspaper Editors for their active co-operation in the Alberta Junior Citizen of the Year program, sponsored by Alberta's investor-owned electric utility companies.

This is one of a series of Junior Citizen Award announcements. Our special thanks to Mrs. Dalton, Editor of the Beverly Page and to Keith's nominator, Germaine Dalton of Edmonton.

fashion news

BY NANCY GAYLORD

FASHION CONSULTANT TO THE 160 SINGER CENTERS IN CANADA.

Ride 'em cowboy! Go Western on the ski slopes in togs of "jean look" denim branded with studs, pocket flaps and contrasting stitching. For dudes, there are embroidered jackets lavished with fur, shoulder-buttoned "intern" jackets and nylon shells with a diagonal slash of zipper. Just learning? You'll love permanently pressed ski-pants . . . they stay fresh and smart fall after fall after fall (I know).

Hang before you hem whirlily bias-cut skirts. "But I want to wear it to-night," you say. If you just can't let it hang for at least 48 hours, do this: cut the true bias skirt length $\frac{1}{2}$ inch shorter (more, if the fabric is very stretchy) than the straight grain length. Curve smoothly between. As the bias stretches, your hem will become (almost) even.

Corduroy comes on strong. Wide plushy ribs add class to fashion's favorite, the pantsuit. (Sew a companion skirt for extra mileage). Spice with military buttons, epaulettes and leather. Corduroy's rich nap intensifies colors for flattering results: really vivid brights, soft subtle neutrals and vibrant deeps that sing out. Bonus! Many are

stain and water-repellent too. Buy extra yardage so all pieces can be cut with the nap running up. (Otherwise corduroy has a slight shine).

Overdressed? Check yourself and see. Count one point for each plain item you are wearing. Include accessories as well as glasses, wristwatch and stockings. If the item is eye-catching, count more (a large red hat with black flowers scores 4). Add up your total. Score over 10? You're overdressed . . . better take off the earrings. Under 10? Congratulations!

Pom poms pop up all over . . . on the hems of bell bottoms, sleeves, dresses, or bravely marching up a shift. Dot a snow-white pullover with a rainbow of pom poms. Circle the neckline of a burgundy boucle dress with a ruff of cuddly pom poms. Unravel a strip of fabric and use the yarn or buy knitting wool. Wind it around and around a strip of cardboard two inches wide (wider for a bigger pom pom). When enough loops are formed, bind them together with strong thread. Cut loops at opposite end. Fluff, trim and steam.

Berrymoor News

Mrs. Bea Cropley,
Correspondent

Get well wishes go out to Mrs. Isobel Martin who has been a patient in the Drayton Valley Hospital for the past week.

The Berrymoor P.H. Church had the honor of hosting the quarterly conference of the P.H. Church. On the evening of Friday, October 14th folks from Sundre, Bergen, Vancouver, B.C., Poplar Valley, Winfield and Lampland, Saskatchewan gathered for a combined Sunday School and Lifeliners Rally. The evening featured special numbers in song by the different Youth Groups and the Foothills Bible Institute Choir. Guest speaker was Mr. Ward Rowen, a Vancouver policeman, and leader of youth in the P.H. Conference.

The conference began Saturday at 10:00 a.m. A buffet style turkey dinner was served at noon by the Berrymoor W.A. The business meeting continued until late in the afternoon. A lunch was served and the final message was given by Rev. Kennett, a visiting Pentecostal minister from Lampland, Saskatchewan.

Rev. Fred Thomson, pastor of the Vancouver, P.H.

Church and Superintendent of the Conference arrived here on the thirteenth and held a special meeting that night; conducted the conference on Saturday, took two services on Sunday and one on Monday night.

On Tuesday afternoon Mr. and Mrs. Harry Campbell drove Mr. Thomson to the Edmonton International Airport to meet his wife who flew in from Vancouver. Mr. and Mrs. Thomson took a plane for the north where folks are waiting for a new work to be opened.

Mrs. H. Barrett arrived home a few days ago after spending some time with her daughter, Mrs. Bertha Olesen of Markerville.

We wish Claudette Barrett success at her new job as receptionist at the Medical Centre in Breton.

Trudy Van DeCastle works just across the street at the new bank. The girls can wave at each other as they go about their duties.

SCHOOL

Frank Maddock High School

FLASHES

On Monday, October 17th the students of Frank Maddock High School were given a talk on dental care. Dr. Simpson, head of the Child Dentistry Department of the University of Alberta and Dr. Clark, President of the Alberta Dental Association, both gave talks on care of the teeth while Dr. Finnigan, Stony Plain Dental Health Officer showed slides. After the talks questions were answered by the doctors. Also present was Dr. H. Shimbashi the Drayton Valley dental representative.

On Friday, October 14th a

committee selected the cheerleaders for the 66-67 school year term. The girls were chosen by Mrs. Braybrook, Miss Thompson, Mr. Hall and Mr. McGuigan. The girls are, Claudette

Coutu, Pat Everleigh, Marlene Hazzard, Verna Hodgson, Brenda Kerr, Chris Landreth, Alison Waugh and Julie Wilner. The spares are: Marilyn Campbell and Tricia Hill.

Meeting Report Heard by Nurses

Nine members were present at the regular monthly meeting of the A.A.R.N. held October 12th to approve the minutes of the June and September meetings and the September executive meeting.

For the present, the current copies of the American Journal of Nursing will be kept in a cabinet in the nurses residence giving members a chance to exchange magazines at the meetings. Back issues will be kept at the hospital.

M. Palmer had the opportunity to visit our "adopted patient" at Ponoka recently. An interesting account of her visit along with recent correspondence from our patient enabled the group to know her somewhat better.

M. DeCiccio attended the executive committee meeting of the North Central District in Edmonton on September 19.

Of the 21 Chapter Presidents invited to attend, twelve of these were present. Budgets for the chapters were presented at this meeting as prepared by the chapters. It was learned that the monies that will be appropriated to the District will be on a quarterly basis and in turn directed to the chapters, according to the approved budgets.

As rural chapters are very concerned with the geographical representation of the district, Miss Allan was asked to see Provincial Council about revision to make definite allowance for rural representation.

During lunch, served by K. Meraw and B. Johnston, literature on alcoholism was made available. Lively discussion arose on the fluoridation issue and great concern was expressed, especially over the recent full page ad in The Western Review which to all appearances was not inserted by a local group but by a group from Edmonton.

A staff nurses association rally will be held on November 2nd in the Royal Alexandra Nurses Residence Auditorium. The guest speaker will be Mr. K. Barrass on "Why Staff Associations, what can they do for you?"

On November 9th there will be a meeting for Chapter #33 of the A.A.R.N. at 8:00 p.m. in the nurses residence in

Drayton Valley. Guest speaker will be Mrs. Pat Sheehan, district home economist from Edson, on A.R.D.A.

Carnwood News

Mrs. Rose Saunders,
Correspondent.

The Carnwood Country Club would like to thank every one who supported their bake sale at Drayton Valley. Also a special thank you to the Manager of The Bay store.

Visiting at the home of Mr. and Mrs. Andrew Wake was Mr. Wake's brother and sister-in-law and daughter, Michelle from Australia. We understand Michelle is staying with her aunt and uncle for awhile.

Mrs. Opal Ward arrived home on Monday after spending the summer up at Jasper, Alberta, where she was employed at the Alpine Lodge.

Mr. and Mrs. Victor Anderson and family are now living in the hamlet of Lindale. They are residing in the house that used to be the Leroy Johnson home.

Mr. and Mrs. Ken Badgerow were recent city visitors.

We hear that Sibrandt Jorgensen expected to be home Saturday, October 22nd.

Scooter Statistics

Concern has been expressed recently about young drivers on motor scooters and according to a recent announcement by Hon. Gordon E. Taylor, Alberta Minister of Highways, 466 accidents involving scooters occurred in the first seven months of 1967. In 48 percent of the accidents the scooter driver was apparently at fault with drivers of other vehicles responsible for the remainder.

Other statistics reveal six persons were killed in the accidents. Three hundred and seventy-four were injured (269 drivers, 10 pedestrians, six motor cyclists and 89 passengers).

Number of accidents by age group: 14 year olds, 73; 15 year olds, 124; 16 year olds, 9; 17 year olds, 66; 18 year olds, 43; and others, 69.

To Publish Anthology of Alberta Cultural Heritage

The Honourable Ambrose Holowach, Provincial Secretary and Chairman of the Alberta Centennial Committee, has announced that the Government of Alberta and the Canadian Authors' Association, Edmonton Branch, have entered into an agreement to publish an Alberta Anthology to commemorate Canada's Centennial.

The book, which will be designed to capture as much as possible of the cultural literary heritage of Alberta, will be the work of Albertans exclusively. It will include the writings of some of Alberta's pioneer authors, as well as those of contemporary

writers and poets, and will be attractively bound and illustrated.

Contributions for the Anthology are being invited by the editor-in-chief, John Patrick Gillespie, who will be assisted by Dr. W.G. Hardy, Margaret Coleman Johnson, Dr. J.W. Chalmers and June Fritch. Illustrations editor will be Dorothy Barnhouse. Previously published material will form the bulk of the work.

Information on the specific requirements for works to be included in the Alberta Centennial Anthology is available from John Patrick Gillespie, 10450 - 144th Street, Edmonton, Alberta.

IT'S YOUR BIRTHDAY. COMING TO THE PARTY?

Expo 67 is the candle on Canada's Centennial birthday cake. The crowning event of a whole year's celebrations. It opens in Montreal next April 28th for six months—the biggest, most exciting show you have ever seen. Make it a date, now.

Get your entrance Passport now—and save. Reduced prices up to February 28th: Daily Passport, \$2, Weekly Passport (7 consecutive days) \$7.50. Also big reductions on Season Passports and Youth Passports. Children 2-12 on April 28th, 1967, half price. On sale at banks, travel agents, transportation companies, department stores, service clubs, women's associations, labour groups, and wherever you see the official Expo 67 sign. Ask about Bonus Books, too, for big discounts on food, rides and entertainment.

Accommodations? Guaranteed. Write to the official EXPO 67 accommodation bureau: LOGEXPO, Expo 67, Cité du Havre, Montreal, P.Q.

Tomahawk 4-H Presentations

Lucas Piskunowicz, his arms loaded with trophies, is shown above with men who made presentations at the Tomahawk 4-H banquet last Friday.

Lucas, a member of Tomahawk 4-H Beef Club, won the trophies for showmanship, efficiency and club grand cham-

pion calf.

With him are, left to right: Roger Parris, Tomahawk Hotel; C. W. Schoepp; Frank Neil, Royal Bank, Drayton Valley; Dan Schadeck; and Dale Bly, Cormie Ranch.

Unfortunately, another photo

showing other winners was damaged during processing and unsuitable for use.

Others who received trophies were: Terry Medd, best records 4-H Beef Club; Elaine Jouan, efficiency, 4-H Clothing Club; and Ralph Goertz, reserve champion calf.

Women Blamed for Part Of High Food Costs

The president of the Farmers Union of Alberta recently placed part of the blame for the high cost of food on Canadian housewives. Paul Babey commenting on the boycott of grocery stores by some eastern housewives, said they are protesting a situation that they had helped bring about.

"Housewives all across Canada are paying dearly for the bar maid's service they at best demand and at worst, meekly accept in food preparation, packaging and distribution," he said.

"The convenience of the special pouring spout, the package that can be re-sealed, the multi colored window packages, the endless variety of brand names, packages with almost identical contents, the 'free' entertainment for children, etc. etc., and the box top premiums, have all become a very costly part of dis-

tribution of food.

We cannot overlook, the cost of the high pressure advertising that is being used to market food, or the profit factor in processing and retailing--all of which add to the price to the consumer.

The present high cost of food has certainly not been brought about by the producer, he stated. "In Canada cheap food has been subsidized solely by the farmer."

Mr. Babey pointed out that because farm prices have not kept pace with rising costs, production of certain food items has been discouraged and some are in short supply.

Mr. Babey stated that the spread between the producer price and the consumer price continues to be unrealistic.

He noted that Grade A eggs for which the producer receives .44 cents (and an average of .32¢ per dozen for all eggs

sold) retail for .67¢. He pointed out that since eggs are naturally pre-packaged, very little additional packaging is required.

The F.U.A. president sug-

gested four steps toward resolving the food problem, and relieve the pressure on low income families particularly.

1. A Royal Commission inquiry into the Food Industry which would bring to light the reason for the high cost of food as compared to farm prices.

2. Development of a planned policy for Agriculture encompassing fair prices would assure Canadian Consumers an abundance and variety of food.

3. Establishment of a department of consumer affairs to regulate advertising, packaging, gimmicks, etc.

4. Consumer education to prevent impulse buying and to

enable the consumer to properly evaluate professional advertising.

Ladies Seek More Curlers

The Drayton Valley Ladies Curling Club is planning its first draw for the first week in November. This year Wednesday night will be reserved for ladies curling.

The club is asking that anyone wishing to curl, leave their name with either Donna Goble at 542-4144 or Thelma Young at 542-3406 before October 29th.

Halloween Campaign For UNICEF Funds

The annual "Pennies for UNICEF" drive will again be held this year on Halloween night, October 31st from 5:30 p.m. to 8:00 p.m. Children of all ages from St. Anthony's

Roman Catholic Parish and from the United Church Sunday School will be collecting donations in specially marked containers.

Please stock your coins with

THE WESTERN REVIEW - Drayton Valley, Alberta - October 26, 1966 - Page 9

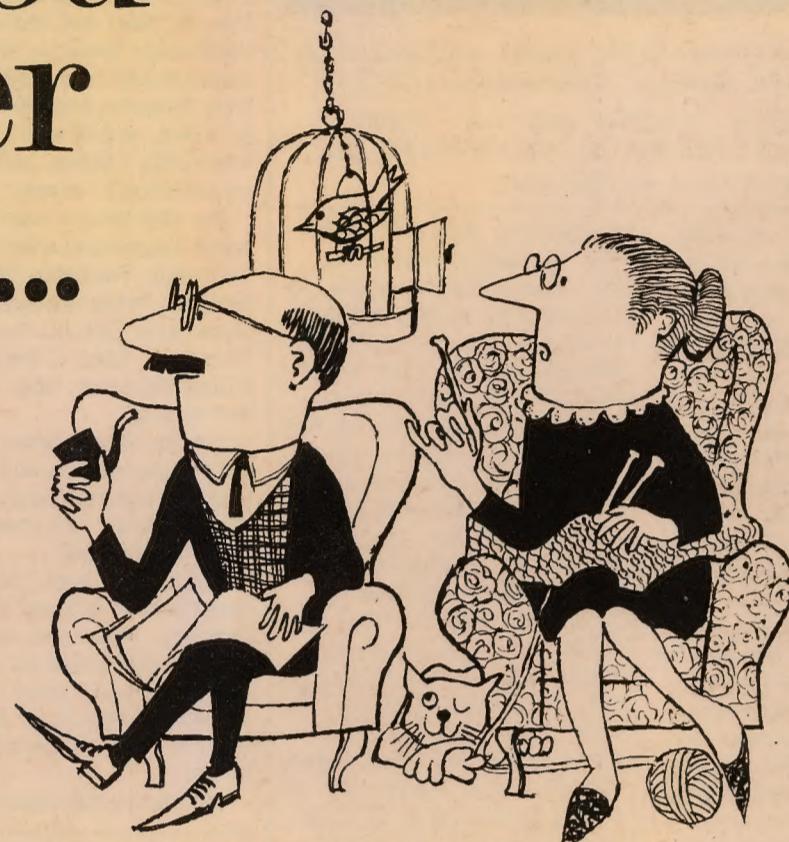

your goblin treats. All donors are capable of saving lives. For example: $\frac{1}{4}$ provides a child with enough vaccine for protection against T.B.; $5\frac{1}{2}$ provides a child with penicillin to cure Yaws, a deforming disease; and $10\frac{1}{2}$ provides 50 glasses of milk.

UNICEF is an organization of the United Nations which is concerned with the welfare of children (57 million children in over 100 countries). It is financed through voluntary contributions from governments and "Pennies for UNICEF" plays a very essential

part.

Children from both churches are asked to meet in the basement of the United Church to pick up banks. Please bring a note from your parents giving you permission to collect, and bring a friend to walk with you you.

Have you ever wondered...

...what happens to government materials and machinery when they reach pensionable age?

Three possible fates await furniture and equipment that have outlived their usefulness to a government department: retirement, transfer and the auction block. Which it will be is decided by the Alberta Commercial Branch, Department of Industry and Development. Last year, in a series of bargain sales, this agency recovered over \$400,000 for a selection of items varying from horses to windows, tractors to furniture, which were still usable but no longer of

...how far you are from a provincial park?

In most populated areas of Alberta, not more than 50 miles. As public need dictates the location of the parks, the majority are located in or near heavily populated areas and, as the population increases, so do the number of parks. Altogether, there are 41 of these playgrounds in the Province, each established and maintained by the Parks Division of the Alberta Department of Lands and Forests. It takes a staff of 300 employees to provide the parks with all the facilities and services required, such as approximately 1600 cords of cut wood supplied free each year. In addition, the Parks Division maintains 23 historic sites across the Province, ranging in size from one-quarter acre to 107 acres.

use to the government. In addition, many items were sent back to work with another department where they still had a useful future.

...how bridges add to Alberta's beauty?

Next time you drive Alberta's highways, watch the bridges and overpasses and see how many different designs you can count. This variety of shape and color is a contribution to the beauty of our Province by the Bridge

Branch of the Alberta Department of Highways. Each year, this Branch builds or rebuilds approximately 400 bridges, and each of the major ones is a part of the program to add to the interest and appearance of Alberta's highways by using varying designs, colors and materials. There are approximately 10,000 bridges under the jurisdiction of the Branch, of which about 700 are steel, 2,200 concrete, 4,300 of timber, and 2,800 large culverts installed in lieu of bridges.

...what a high speed digital computer is doing down on the farm?

Actually, it isn't ON the farm. It's a part of the Data Processing Centre of the Provincial Government. However, it does contribute greatly to a comprehensive farm analysis program being undertaken by the Farm Management Branch of the Agricultural Economics Division, Alberta Department of Agriculture. Under this program, the Branch assists any

farmer who so desires to maintain an accurate record of his physical and financial operation. Armed with these figures (this is where the computer comes in), economists can measure the efficiency of the farm, determine the problem areas and suggest possible solutions. Over 400 commercial farmers in Alberta are being assisted under the program, and the only costs to each participant are a \$10.00 processing fee and \$1.00 for the account book in which the records are kept.

...how education can be made more interesting?

Aesop taught many a valuable lesson with his "Fables", because he knew that education was far more palatable when it was presented in a dramatic form. Today's version of this combination is in the radio and television broadcasts to schools by the Audio-Visual Services Branch of the Alberta Department of Education. Twice a day, during most of the school year, radio school broadcasts teach dramatic, entertaining and effective lessons in classrooms across the Province, and a number of television programs are provided each year as well. These have a two-fold purpose: to explore the value of television in education and to supplement classroom work on key subjects. In addition to the broadcast media, the Audio-Visual Services Branch provides sound films, tape recordings and filmstrips and advises teachers and administrators in their uses.

...what became of the old-fashioned, travelling dentist?

He's still here, still travelling, but no longer old-fashioned. Today, the dentist who provides service to the outlying

areas of the Province has the most modern equipment, provided by the Dental Services Division of the Alberta Department of Public Health. This Division has three complete units of dental equipment which are transportable and available to those practitioners who volunteer to serve rural communities where dental services have not been established. Approved local organizations such as the Home and School Association or the Chamber of Commerce can apply for this service through the local health unit, the Alberta Department of Public Health, or the Alberta Dental Association.

GIRL GUIDE NOTES

One hundred and fifty Drayton Valley girls are active in the Drayton Valley Guide Movement.

We are fortunate to have these women willing to be Guiders: Monday Brownies, Mrs. Pulawski and Mrs. H. Demers; Tuesday Brownies, Mrs. R. Wickens, Mrs. A. Horne; Wednesday Girl Guides, Mrs. F. Neal and Sister Edna; Wednesday Rangers, Mrs. H. Hammerlindl and Sister Gabriel; Thursday Brownies, Mrs. J. Tyler, and Mrs. K. Adams; and Friday Guides, Mrs. Bowen and Miss B. Mason.

We also have a very helpful local Association with Mrs. T. Schuman, President; Mrs. R. Simpson, Vice-President; Secretary, Mrs. L. Wickland; Treasurer, Mrs. J. Reid; and Badge Secretary, Mrs. T.R. Henderson.

Besides these women we have many women and men who act as Badge Testers from time to time. To these we say, "Thank-you".

There have been complaints that the new uniform is too expensive. When you consider that the girl wears the uniform once a week for three years and then resells it for half price it doesn't cost very much.

Provincial Headquarters are

asking for the old style uniforms to be used in Northern Canada and other needy countries in the world. Anyone having any old uniforms they wish to dispose of, please phone 542-4123 or 54214271.

We would like to thank all

who donated rags to our Rag Drive. If anyone wishes to buy some of these old rags, please contact Mrs. Schuman at 542-4271.

STAMPS WIN OPENER

The Stampeders took a one game lead in the best of three game final playoffs for the Community Pee Wee Football championship by defeating the Eskimos 33-6 last Sunday afternoon. The game was played at the West Valley Recreation Park.

The Stampeders who have had a wide margin in play all during the season kept up their drive in the playoff opener. They piled up a 20-0 lead by half time and held an edge throughout the entire game. The Eskimos, however, never gave up and despite the fact that the team was very short-handed with only fourteen boys in uniform they certainly made a game of it from beginning to end. The Esks got their lone score half way through the fourth quarter.

Scoring for the Stamps were Jay Meraw, Jerry Litke, Norman Tucker, Neil Samis and Doug Smith. The Stamps were good on three of five convert attempts. Blair Ibbottson drove over for the lone Eskimo score. Both teams put forth a solid team effort and despite the difference in the score, it was a very fine football game. Billy Scherger carried the football on the majority of Eskimo plays. Both teams broke loose for some long gains during the afternoon.

Next Sunday, October 30th the same two teams will meet in the second game of the playoff. If the Stamps win they will be the 1966 champions, however, the Eskimos are capable and just might even the series at one game each. The game will be played at the Lions' West Valley Recreation Park starting at 2:00 p.m.

Ladies' Aid Meeting

The regular monthly meeting of Emmaus Lutheran Ladies Aid was held on October 20th. There were 18 ladies present. The topic for the evening was Biblical Concepts of Christian Stewardship". A new member, Mrs. Grace Dombrova and a guest, Mrs. Susan Litzenberger were welcomed.

As this is the month for the election of new officers, the following were named to the new executive: President, Mrs. Ervin Rendflesh; Vice-President, Mrs. Doreen Liske; Secretary, Mrs. Gladys Schultz; Treasurer, Mrs. Eleanor Metzger; Card Reporter, Ann Marie Nickel; and Altar Committee, Elsie Hagman, Pearl Getzinger and Rachael Anderson.

There will be a pot luck supper on Loyalty Sunday, November 6th.

Christmas cards are now available. Anyone wishing to purchase cards may contact Mrs. Eleanor Metzger. Hospital visitors for the month of November are Dorothy G. Rendflesh, Naomi Schneider, Gladys Schultz and Mary Schuman. Church cleaners are Mrs. Susan Litzenberger and Mrs. Grace Janzen.

The meeting was closed with a prayer led by Rev. Drawbaugh, followed with a lovely lunch served by Gladys Von Tettenborn and Jane Zanders.

Curling News

The enthusiasm for curling has started to pick up, as Ice-maker Halvor Nordby is fighting with the weather to get the ice ready for the mixed bonspiel which goes off this weekend. Thirty two rinks have filed entry some from as far away as Calgary and Edmonton. Curling will get under way Friday night and continue into Sunday.

Regular men's league curling will get under way on Monday, November 7th with the season kicking off with an Open Stag Night on Thursday the third of November. The night will feature films of top curling and hockey spectacles of 1966, these films are courtesy Molsons, lunch and refreshments will be served. Films will be shown at 9:00 p.m. sharp, these will be preceded by some exhibitions of sharp shooting by some of the ardent

curlers in the club.

To date some 35 rinks have placed entries in the Men's League with the maximum being set at 44. Entries for the Men's league can be dropped in at the curling club. Rinks that are short curlers can fill their rinks from the draft board which is posted at the rink.

Bill Sware, chairman of the Sunday-mixed league has only four spots to fill to make out his complement of 20 rinks. Interested rinks are asked to call Bill Sware at 542-4021, or you can also sign in at the rink.

President Donna Goble of the ladies club has put out a call for all interested lady

New Employee At Post Office

Mr. Ronald R. Hemmingway commenced work at the Drayton Valley Post Office on Monday, October 17th.

Mr. Hemmingway commenced his postal career in the Vermilion, Alberta Post Office on April 1st, 1962 where he was employed as a Postal Clerk until his promotion to Postal Officer Classification at Drayton Valley.

Mr. and Mrs. Hemmingway have purchased a house in Drayton Valley and have already taken up residence here. Mrs. Hemmingway is a school teacher and is teaching at the Elementary School. They have one pre-school age daughter.

Named Director Oil Wives Assn.

Delegates left Drayton Valley on Monday, October 17th to attend 1966 Oil Wives Convention in Calgary.

Dot Booker was elected Publicity and Historian Chairman on the Board of the Association of Oil Wives Clubs. This is the first director to be elected from the Drayton Valley Club.

Wild Cats End Season With Tie

The Drayton Valley Wild Cats closed out their Bantam Football season last Saturday with a 7-7 tie against the Stedelbauer Chevies from Edmonton. The game was played under ideal weather conditions at the Lions West Valley Park.

The Chevies got off to a fast start and led 6-0 at the half and 7-0 after three quarters of play. The Wild Cats came back strong in the closing quarter with Doug Ibbotson directing an effective passing attack. Ibbotson completed a touchdown pass to Don Boushard on the last play of the game. The convert was good to tie the score at 7-7.

This was the final game of the season for the Wild Cats. Bantam football had a good season in 1966 and possibly some valuable contacts were made which could benefit our football program and our community as a whole in the future. This certainly was one of the more successful seasons in Bantam football and at this time we wish to thank one and all who helped make it so, especially coaches Paul Bradley and Doug Hall as well as the officials for all local games, Henry Shimbashi, Bill and Dave Disney and Ricky Simon.

House League Activities

House League sports (starting with tug-o-war) swung into high gear at the Drayton Valley Junior High School last week. Com-

petition between the various "houses" will cover a variety of sports and scholastic activities.

Calmar Girls Win Prizes

MONTREAL-- Prizes totaling \$2,250 were awarded Friday to three winners in a national sewing contest for young girls.

The winners were selected from 18 finalists who were flown here from eight provinces for the final judging.

Some 5,000 girls in the 11 to 18 years age group entered the contest, sponsored by Singer Company of Canada Ltd.

The prize in the Junior Miss category (10-12) went to Carol Thomas, 11, of Calmar, Alta., for a wedgewood blue wool granny gown. She received \$500.

First in the Sub-Deb Division 13-15 was Cathy Sikora, 13, also of Calmar, with a plaid and heather wool suit ensemble. She received \$750.

Both Miss Thomas and Miss Sikora live on farms and are second cousins.

SCHOOL

Frank Maddock High School

FLASHES

Last Friday, October 21st the first edition of the Frank Maddock High School paper was published. The co-editors, Joan Wills and Ray Letwiniuk and the rest of the staff are to be congratulated on the fine job.

Volleyball practicing for senior and junior boys and girls started Monday evening with Mr. T. Hutton coaching. The first game is to be played on Friday the 28th with Winfield playing at Drayton Valley.

On Friday, October 28th there will be a double band-

stand featuring The Chessmen and US Inc. in the Elementary School. The dance is being sponsored by Teen Town and will start at 9:00 and end at 1:00. Admission is \$1.25 per person. See you there.

Shower Planned

Friends of Miss Lila Shewfelt will be interested to know that Mrs. Eugene Urchyshyn will be holding a bridal shower in Miss Shewfelt's honour at the home of Mrs. Bohdon Urchyshyn on October 29th at 8:00 p.m. All friends are cordially invited.

Miss Shewfelt's marriage will be an event of November 4th.

Christmas in October?

It may seem unreasonably early, but we are urging patrons to come in now and pose for CHRISTMAS PORTRAITS. Its one gift you cannot rush out and purchase at the last minute, because good professional portraits cannot be hurried, and they do take time and extra special care. Few gift choices for Christmas are as warm hearted, loving and truly welcome.

Hail Studies Project Closing for Season

With the 1966 hail season over, the Alberta Hail Studies project has now closed down its field headquarters on the Penhold Air Force base for the winter. The area under intensive study during the past summer extended from Leduc south to High River, and from the foothills east to a Hann-Viking line. Full details on all hailstorms were supplied by a voluntary network of some 25,000 farmers living within this area.

During the past 5 months more than 2100 hail reports were mailed in by farmers. Hail was reported from somewhere within the study area on 62 days between mid-May and mid-September. Both these figures are considerably below averages based on the past nine years of Hail Studies records.

Only on 13 days were there significant storms producing pockets of hail one inch or more in diameter at some stages during their life-cycle, and in nearly all cases the damage was very localized in extent. This was in sharp contrast to areas east, and particularly south, of the study area where millions of dollars worth of damage was inflicted on crops and property by severe storms at the end of July and early August. This is all part of the large natural variation

in hailstorm activity from year to year and place to place in Alberta.

Because of further delays, the new weather radar was not installed at Penhold this summer. The old set was kept running, and tracked all storms within an 80 mile radius obtaining data on their location, movement and height. The main effort of the project this year was concentrated on cloud photography and upper-air balloon soundings.

Extensive time-lapse photographic sequences were obtained on several days, and will allow very accurate and detailed measurements to be made on the rate of growth of cloud bubbles in the storm systems. On these same days telephone surveys were made to find out as much as possible about the precipitation falling from the clouds being photographed. In this way an additional 1025 hail reports and 1400 "no-hail" reports were obtained from farmers.

To study the environment in which storms grow one hundred radio-sonde balloons were sent up during the summer. These balloons carry a small radio transmitter which sends back pressure, temperature and humidity measurements as it rises through the atmosphere to heights of 20 or 30 miles. In addition, by tracking the bal-

loons with a special antenna information is obtained on the upper wind flow.

To gain further insight into how water freezes to form hail stones a network of precipitation collection stations has been set up across Alberta to collect samples of rain, snow and hail, for laboratory testing. These will be compared with samples obtained from a Canada-wide network. Also, some of the samples will be subjected to chemical analysis, to find out what natural or man-made constituents, if any, are present in Alberta precipitation.

During the winter months scientists at the Research Council of Alberta, the University of Alberta, the Edmonton Weather Office and McGill University will carry out the tedious task of tabulating, correlating and analyzing all the data collected this past summer. More will be learned about the general weather conditions conducive to severe storm development, where and when the storms start, and how hailstones form and grow within them. These are some of the essential prerequisites to any scientifically designed experiments on storm clouds, aimed at developing hail suppression techniques. To this end the continued co-operation of the farmers in sending in their hail reports is very much appreciated by the Hail Studies group.

Finally, through the Liaison Committee, contact was maintained with the Alberta Weather Modification Co-operative, an independent group who are conducting a commercial hail suppression program in the Calgary-Drumheller-Didsbury area. Whilst there is a basic difference in the approach being used to help

solve the Alberta hail problem the two projects do complement each other in some ways, and a useful exchange of data and information therefore took place between the two groups during the past summer.

Drayton Young People in Youth Bowling Council

The 1966-67 Senior High School bowling season got underway on Wednesday, September 21st after school.

Thirty-six bowlers who were present were divided into six teams. Each player used the first two weeks to establish an average. After an average was established, bowling for points began. The Safety Pins are now leading the scoring race with seven points.

The Junior High School, which got off to a slow start on Thursday, September 22, is now in full swing.

The Bantam League started on Saturday morning, September 24th. It also has a full quota of young people.

This season the Youth League has joined the Youth Bowling Council. In this organization each member has a chance to win individual awards. These awards are divided into three age groups. They are: Seniors, 15-21; Juniors, 12-14; and Bantams, 7-12.

The awards are won in the age group. Although Bantams and Juniors can receive senior awards, seniors cannot receive any awards under their age group. Other achievement awards are: 100 pins over average; merit award; loyalty award.

Any person bowling a 425 or rendering an outstanding service to the league can receive his merit award. If a person attends faithfully every week he will receive his loyalty award. There are also double, zone and provincial championship awards. These

are won at official Y.B.C. tournaments.

The doubles championships were held on October 8th. Seniors rolled off at 1:00 p.m. and Juniors at 3:00 p.m. The winners were: Senior boys, Pat Hurley and Jim Chenery; senior girls, Faye Bohnet and Linda Brown; junior boys, Ed Simison and Butch Shewfelt; junior girls, Lynne Hurley and Linda Astle.

More championship and classics are scheduled in the months to come. So the coaches wish everyone to keep practicing; for everyone of you have a chance to attend and anyone who has been to these tournaments will tell you it is an unforgettable experience.

Junior High Highlights

The Junior High School has again for the second year, accepted the Curtis Plan which is the selling of magazine subscriptions. The students from the local school will be going from house to house taking renewals and new subscriptions starting on Friday, October 28th.

This Curtis Plan has offered a choice of many prizes to the students for individual sales and also a daily award for the room with the most sales. If the school exceeds last year's sales, then it will be presented with a large trophy. The proceeds to the school will be used to provide scholastic and athletic awards to students as well as proposed Centennial projects.

Order Allows Extended Time New Year's Eve

New Year's Eve celebrants in Alberta will have an extra two hours for their public enjoyment under regulations passed by Order-in-Council approved by the Alberta Government last week.

According to the order, an automatic extension allows theaters and places of public dancing to remain open until 2:00 a.m., Sunday, January 1st, 1967.

There has been no statement from the Government on any changes in regulations effecting the sale of liquor.

Table Tennis Possibility

The Recreation Board would like to hear from anyone interested in playing table tennis during the coming winter season. A facility seemingly could be made available for this purpose if the interest warrants its organization.

A few people have already shown an interest in this activity. If you would like to join drop in at the Recreation Office or Phone 542-3327.

Dance Tickets Now Available

Tickets for the Goblin's Ball sponsored by the Legion Auxiliary may be obtained from Rex TV, Copeman's Shoe Store or Derrick Supply.

BOOKLET AVAILABLE TO TEEN-AGERS

Everybody wants to help the grown-ups understand the teenagers, but who helps the teenagers to understand the grown-ups? Well, the Canadian Mental Health Association will be glad to send you a free booklet entitled, "Your Teen Years." Just write to C.M.H.A. --that's the Canadian Mental Health Association, 619 Revillon Building, Edmonton.

● CIRCULARS ● CATALOGS ● DISPLAYS ● BUSINESS CARDS

Determine Value of Your Seed Grain

The majority of western farmers plant seed that is produced on their own farms, or purchased from a neighbor. Fortunately, most of the grain harvested in the Prairie Provinces this fall will be of good grade and bushel weight. This does not mean, however, that it will make good seed.

For instance, grade and bushel weight do not tell how well the grain will germinate. Twenty years experience in the business of testing farmers' stocks of seed-grain has shown that many samples of cereal seeds may consist of large, plump kernels of good weight and color, and germinate poorly. In other words, the ability of a grain sample to germinate satisfactorily must be determined by proven seed testing methods.

Good Seed Facts. Ability to germinate (grow) and to produce strong, healthy seedlings is the first requirement of good seed. The second major requirement is freedom from smut and other seedborne diseases. Thirdly, good seed must be free, or relatively free, of weed seeds, other crop seeds, and foreign material. In addition, good seed must be true to variety.

Seed Laboratories. The Canada Department of Agriculture (Plant Products Division) maintains Seed Laboratories in Winnipeg, Manitoba, Saskatoon, Saskatchewan and Edmonton, Alberta, which test pedigreed seed, and farmers' seed stocks. To serve western farmers, many grain companies operate seed testing laboratories. Our own Seed Laboratory, which has been in operation since 1940, offers a complete seed testing service. Again this year it

will, without charge, test any farmer's home-grown seed-grain sample for germination, surface-borne smut, and weed seed content. Seed samples may be sent in through any Line Elevator Agent, or directly by the farmer himself. Any grain sample submitted for a seed test should be dry, sound, and truly representative of the seed lot from which it was taken.

Now is the time to determine the seed value of the grain you intend to use for seed purposes in 1967. If it is found that your sample is not satisfactory for seed purposes, you then have time to use your "over the quota" delivery privilege to exchange your home-grown seed for some pedigreed (Registered or Certified) seed. Don't take a chance this year. Have your home-grown seed tested for germination.

FALSE ALARM

GAGSTERS

TAKE HEED

With fire alarms if you must play,
You're sure to find one bitter day,
Alarms are not for gags alone,
The life they save may be your own.

UNICEF

WORTHWHILE

Some critics question the idea of children collecting money for a serious cause like UNICEF on what they consider a fun night. Experience has shown, however, that children really delight in doing something worthwhile for others, especially if the project kindles the imagination.

Some of the finest cooks in the world live in Canada's small towns and villages and their very special and secret recipes, created over the years by the trial and error method are usually handed down through members of the family.

In a small New Brunswick village, population 600, lived one of these famous family cooks whose skill in the kitchen was widely known locally. She lived to be 92 and for many years her favorite recipe, and the most popular with those fortunate enough to taste her food, called for the preparation of veal cutlet.

CARD OF THANKS

We would like to thank all the people who were so kind to us in the loss of our beloved father. Special thanks to Dr. Lewis, Vancel Swap, Frank Swap and George Hart.

Mr. and Mrs. Chester Morrill and family.

Scooter Limit Is Discussed

The Alberta Motor Association at a meeting held with the Honorable Gordon Taylor, Minister of Highways, requested the Provincial Government to re-examine the Scooter Legislation with a view to determining whether the present age limit of 14 years for a Drivers Licence is realistic.

In addition, the A.M.A. requested that legislation be amended so as to require that all helmets be equipped with a chin fastening device and that this be fastened at all times.

FRESH WATER GROWING CONCERN

Fresh water resources is now a subject of growing public concern, but water pollution appears to remain a matter of private responsibility. Water polluted by human and industrial sewage must be treated with chemicals or boiled. If in doubt as to the purity of your water supply, contact your local or provincial public health department.
